CAREER OBJECTIVE

I am a Full-Stack Web Developer with hands-on experience in building responsive and dynamic web applications. My programming experience is 3 years+. My tech stack includes HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Redux, Node.js, Express.js, MongoDB, Mongoose, SQL, PostgreSQL, Prisma, and Tailwind CSS. I'm passionate about transforming ideas into impactful digital solutions and continuously expanding my skills.

Alongside full-stack development, I'm actively exploring Docker, AWS, Vitest, Jest, and GraphQL to become a well-rounded developer with strong DevOps capabilities. Eager to launch my career in DevOps with a strong passion for cloud technologies, automation, and continuous learning. Excited to contribute to the stability, performance, and security of the Valamis learning platform while supporting its ongoing evolution to meet user needs.

SKILLS

- | | | | |
|-----------------------|---|--------------------|--|
| ● Front End: | <i>React.js, Next.js, JavaScript, HTML, CSS, React Router, TanStack Query, Axios, Firebase, Tailwind CSS, TypeScript, Redux</i> | ● Database: | <i>MongoDB</i> |
| ● Backend: | <i>Express.js, Mongoose, Prisma, SQL, PostgreSQL, JWT</i> | ● Tools: | <i>Visual Studio Code, Chrome dev tools, React Dev tools</i> |
| ● Soft Skills: | <i>Hard-working, Active listening, Adaptability, Teamwork, Eager to learn.</i> | | |

PROJECTS

CineVerse | *Movie Streaming App*

[Live Link](#) | [Server Link](#) | [Client Link](#)

- Developed a complete admin dashboard with CRUD operations for movies, users, genres, and discount management.
- Implemented SSLCommerz payment gateway with automated email delivery of purchased content.
- Designed relational database schema with Prisma ORM and optimized API routes in Next.js.
- Created an analytics dashboard showing user activity, revenue metrics, and content performance.
- Developed a discount system with expiration usage limits.

Technologies: Next.js, TypeScript, Redux, Prisma, Express.js, sslcommerz, JWT.

TOBEL | *Resued Furniture shop*

[Live Link](#) | [Server Link](#) | [Client Link](#)

- Developed a full-stack reused furniture e-commerce platform using Next.js for the frontend and Express.js + MongoDB for the backend.
- Implemented filtering and searching on the products page.
- Integrated Surjopay payment gateway to buy any product.
- Created user and admin dashboards for managing products, sales, and buys.
- Users can store their chosen products on the cart page.

Technologies: Next.js, Typescript, Redux, Mongoddb, Mongoose, Express.js, JWT.

Travol Explore the world | *Hotel Booking App*

[Live Link](#) | [Server Link](#) | [Client Link](#)

- Implemented user authentication using Firebase Authentication.
- Sorting by the average cost.
- Adding, updating, and deleting tourist spots.

Technologies: React.js, TanStack-Query, Axios, JWT, react-hook-form, react-helmet-async, aos, react-leaflet, moment.js, react-awesome-reveal, react-datepicker, react-swiper-slider, react-slick, sweetalert2.

Soft Skill:

- Strong social and communication skills with a proactive approach to problem-solving
- Quick learner with the ability to adapt to new tools, technologies, and environments
- Reliable and responsible team player with a collaborative mindset
- Fluent in English, able to communicate ideas clearly and effectively
- Open to mentoring, feedback, and continuous professional development
- Embraces diversity, inclusivity, and team activities that foster a positive workplace culture

Experience: 3 years+ programming experience

English Proficiency: SAT (Scholastic Assessment Test) | Total Score: 1250

Education: I have completed my undergraduate degree.

Residency: I am a Finnish Residence Permit holder.
